

Sunny Gupta

Software Developer

Location: [Mumbai,Maharashtra] | Phone: +91-9987721120 | Email: guptasunnya864@gmail.com | Linked In: <https://www.linkedin.com/in/sunnygupta08/>

Professional Summary

Results-driven Full Stack Developer with 2 years of hands-on experience in developing scalable web and mobile applications using Angular, .NET Core, and Ionic. Skilled in designing RESTful APIs, implementing MVC architecture, and managing SQL Server databases. Proficient in end-to-end software development, from front-end UI to back-end API integration and deployment. Adept at working in Agile environments and collaborating with cross-functional teams to deliver high-quality business solutions.

Technical Skills

Front-End: Angular, TypeScript, HTML5, CSS3, JavaScript, Ionic Framework

Back-End: .NET Core, ASP.NET MVC, Web API, C#, LINQ, Entity Framework

Database: SQL Server, SQLite.

Tools: Visual Studio, Visual Studio code, Android Studio, X Code, Postman, Swagger, Git, Azure DevOps .

Other: JSON, REST API, JWT Authentication, Responsive Design.

Professional Experience

Software Developer | [Blue Zone Systems Pvt. Ltd.] | Jan 2024 – Present

- Developed and maintained dynamic web app using Angular and .NET Core backend.
- Designed and consumed REST APIs for data interaction between front-end and server.
- Implemented authentication and authorization using JWT in ASP.NET Core.
- Worked on SQL Server database queries, joins, and stored procedures.
- Assisted in developing internal web portals using ASP.NET MVC and Angular.
- Built and deployed Ionic-based mobile applications integrated with .NET Web APIs.
- Wrote efficient SQL queries and created views to optimize reporting modules.
- Participated in daily standups, code reviews, and sprint planning.
- Ensured code quality and performance through regular unit testing and debugging.

Projects

1. EMS (Expense Management System) for TCE – Web & Mobile Application

- Platform for managing employee trips, advance requests, and expense claims.
- Developed Angular/Ionic front-end and .NET Core REST APIs for secure data processing.
- Integrated SQL Server for storing and querying travel and expense data.
- Implemented real-time status tracking of requests and approvals, improving operational efficiency.

2. CRM for Procter & Gamble – Web & Mobile Application

- CRM platform used by Medical Representatives (MRs) and Area Sales Managers (ASMs).
- Facilitates doctor and chemist visit planning, call activity tracking, feedback collection, and report submission.
- Developed interactive dashboards to visualize sales performance and call metrics.
- Enabled mobile access for field agents, improving on-the-go reporting and decision-making.

3. Trademark Management System for Wockhardt Ltd. – Web Application

- Streamlined management of trademark filings, renewals, and approvals.
- Enabled legal and administrative teams to track workflows efficiently.
- Implemented role-based access control to secure sensitive IP information.

4. B2C Thesis Management Product – Web & Mobile Academic Portal

- Platform for medical students to submit, track, and manage thesis projects
- Features include guide approval workflow, report submission to statisticians, and academic competition tracking.
- Built responsive front-end using Angular/Ionic and integrated with .NET Core APIs for workflow management

5. TCap – Mobile App for TCE

- Mobile solution for engineers to monitor attendance and work progress at metro construction sites in Gujarat.
- Facilitates real-time updates for supervisors and project managers.
- Integrated offline support for areas with low network connectivity, ensuring uninterrupted data capture.

Education

Bachelor of Technology (B.Tech) in Computer Science | [Mumbai University] | [2021]
